Another great Season has come to a close, even with the spring Blackfish closure we had an early Start with a Mild winter our Season Started off bailing Stripers off Eaton's Neck on April 27 on jigs with 24 Keepers ,this fishing only lasted a few day's with Bass feeding on Bunker.By April 30th they were off Cranes with some fish to 24 lbs we had steady action here thru May eventually Bouy 11 had edge over cranes the wild blitzes we had in 2011 on the West slope never happened but they were by Buoy 11 on both tides every day.The June Full moon saw some wild fishing with 3 back to back trips on June 7 and 8 taking 72 Keeper Bass to 36lbs.things settled down after the full moon currents slowed with bouy 11 the most consistent producer .By the 1st of July the inshore bite noticeably slowed .Chunking the middle grounds was the way to go even then we had good day's and slow ones bright spot was some 3-4 lb seabass jumping on the chunks each trip.The full moon produced the biggest bass of the year a 37 lb fish taken in a thunderstorm.August was a disappointment on the bassin front,but May thru July we landed over 300 Keepers.The Big Bluefish never made a solid showing plenty of small blues 2lb and loads of September was pogy- mania with the 40 fish limit some trips brought home close to 100.

October kicked off the Blackfish but warm inshore temps made for a slow bite by 3rd week things picked up with fish showing at 50-60ft depth .The hurricane, snow and a gas shortage kept us off the water from Oct 28 to Nov 10.Nov 11 found good fishing on the 60ft wrecks.A dose of NE winds for a week made things a little bumpy but after it was done we had the Best fishing for 2 weeks in 80ft water with several wrecks full of fish one 3 man trip had 60fish with 30 keepers another 2 man had 40 fish.After thanksgiving we had cold temps windy day's fishing fell off dramatically
