

## 2011 fishing reports

12/1 We have concluded the 2011 season. It was a busy season thanks to our customers. Most recently our Blackfish trips yielded over 500 Blackfish with 180 Keepers. Most trips enjoyed warm temps but windy days meant challenging sea and anchoring conditions. The start of our Season saw plenty of Fluke around with keepers to 7.5 lbs, with sandeel explosion in late May, jigging Stripers quickly overshadowed Fluke fishing and we never looked back, for 3 weeks in June they camped on edges of MT misery shoal and Sunken Meadow Dropoff. Drifting Live Eels became the way to go for the Bigger Bass during June Full Moon period the fishing actually lasted 2 weeks with Stripers to 29lbs taken Day and Night. July was a disappointment the live Eel fishing in the 80-90 ft depths never materialized at which time we switched to chunking. As we got into August Chunking had Steady results with Keeper Bass on every trip this fishing lasted in October with Big Blues stealing the show at times. Our total Bass results were 244 Bass, 166 Keepers 18 fish 20-29 Lbs. 472 Bluefish to 15 lbs hit the decks this year as well as 270 Porgies most of which were Big ones over 12 inches.
